HOW TO MEASURE YOUR DANCER

- A - GIRTH:** Measure from the center of one shoulder, down the front through crotch and up the back to starting point. Remember to add inches for expected growth.
- B - BUST:** With arms relaxed down at sides, measure around the fullest part of chest (around breasts if applicable).
- C - WAIST:** Measure around natural waistline, the narrowest part of the upper body (don't "suck in").
- D - HIPS:** Measure around fullest part of the lower body, keeping tape straight and parallel to the floor.
- E - INSEAM:** Measure inside of leg, from crotch to just below the ankle bone.

SIZING SUGGESTIONS & HELPFUL HINTS

- Measure your child while she is wearing a leotard for the most accurate measurements.
- Take into account that your child will grow throughout the year. **DEPENDING ON HER GROWTH PATTERN, ADD A COUPLE INCHES!**
- Please err on the size of caution and order larger rather than smaller.
- When in doubt, the most important measurement is GIRTH.
- When measuring girth, make sure the tape measure falls over the belly button for accurate reading.

I understand that I am responsible for choosing the size of my child's costume. AFDS staff will not be reviewing all orders for accuracy. Furthermore, I understand that costumes cannot be exchanged for size adjustments as they would not be returned in time for competitions/recitals. All tailoring is the responsibility of the parent. If, for some reason, we need to go with another costume company for your child's costumes, we will use the measurements you supplied above.
